The City of Dahlonega requires that testers must possess a current State of Georgia backflow license. The above list contains some examples of State of Georgia certified backflow companies/individuals that are capable and willing to perform the required initial and annual re-test of backflow prevention devices in the City of Dahlonega service area.

This document should NOT be considered an endorsement of any company/individual listed and is only provided as an aid. A comprehensive list of license holders is available at [www.gawp.org/Backflow/search testers](http://www.gawp.org/Backflow/search%20testers).
